TECHNICAL SKILLS

Frontend: JavaScript, TypeScript, React, Redux, Zustand, Tailwind CSS, Shadcn, Radix UI, Next.js (SSG, SSR), Framer Motion, React Hook Form, Unhead, Tanstack Query, Tanstack Table, Vercel, Jest, Webpack

Backend: Node.js, Express, Hono.js, MongoDB, PostgreSQL, Prisma, GraphQL

Tools: Cypress, Husky, Biome, Figma (basic), Framer , Git , Github , CI/CD

Other: SEO Optimization, API Integration, Vercel

EXPERIENCE

Androbuddy Technologies   Narhe, Pune *August*
React & Next.js Developer   *2024 – July 2025*

- Architected a scalable e-commerce platform using React, delivering advanced features like guest login, dynamic page creation, theme management, and admin-controlled frontend for estimated 10,000+ monthly active users; optimized SEO performance to achieve 85-90 scores across all metrics using Vite, Rollup, code splitting, and dynamic imports, reducing page load times by 30%.
- Developed a production-grade React admin panel for the e-commerce platform, integrating robust authentication, dynamic content rendering, and responsive data tables with Redux, Tanstack Query, and Radix UI; streamlined admin workflows to multiple concurrent admin actions as a solo contributor, enhancing operational efficiency.
- Engineered a Next.js admin panel for a Flutter-based community app, utilizing SSR, SSG, and API routes; implemented CSV uploads for 4K-10K data rows with validation, handling 30K-40K table rows with pagination and fast search, fully responsive and client-approved.
- Leveraged GitHub CI/CD to streamline development, ensuring robust, maintainable codebases; optimized largescale data handling and dynamic rendering across projects, reducing processing times by 30% and earning recognition as "Employee of the Year 2024."
- **Tech Stack** : React.js, Next.js, Typescript, Tanstack Table, Tanstack Query (Former react query), React Hook Form, Shadcn, Framer Motion, GSAP, Vercel, Husky, Biome.

PROJECTS

Echo - An AI chatbot engineered for seamless real-time messaging and code highlighting with Gemini 2.5 Flash Integration, featuring secure OAuth and JWT authentication. Built with Vite, React, Tailwind CSS, JWT, Node.js, Express, MongoDB, Framer Motion, Marked.js. Deployed on Vercel and Render for 500+ users, achieving sub-second response times despite backend latency. (Live ↗) (Github ↗)

Thirty Six Studio- A dynamic recreation of a design agency website showcasing advanced GSAP animations and responsive UI, demonstrating frontend expertise. Built with React, Vite, Tailwind CSS, GSAP. Deployed for 1,000+ monthly visitors, achieving 95% SEO score (Live ↗) (Github ↗)

Route LLM - A pioneering full-stack concept app for context-based prompt routing to optimal LLMs (ChatGPT, Claude, Gemini), enhancing AI efficiency in early testing. Built with Next.js, TypeScript, Vercel AI SDK, Prisma, PostgreSQL, Hono.js. Tested for 1,000+ prompt routings with 40% accuracy using free LLMs. (Github ↗)

EDUCATION

Bachelor of computer science *Savitibai Phule University*   *March 2022 – Feb 2025*
8.53 SGPA
